

Dear Customers, Dear Business Partners,

please be advised that we are closely monitoring the developments related to the new coronavirus epidemic. We have also taken steps to ensure the safety and health of the clients, business partners and employees of the Lubawa Capital Group and to prevent further spread of the virus, introducing, among others prohibition of all foreign business trips, allowed for remote work mode and implemented additional sanitary measures.

This situation poses serious challenges for the industry and disrupts the functioning of the supply chain on a global scale. Our team, bearing in mind the concerns raised, would like to inform you that the internal production cycle within the Lubawa Capital Group allows its companies, including Litex Promo, to have an uninterrupted supply chain.

Thanks to the reorganization of the Lubawa Capital Group Companies and implemented procedures, we have reduced the risk of reducing production capacity and any possible delays in processing orders at Litex Promo.

We remain at your disposal,
Sales Department
