

Textile advertising banners

Textile banners

Letting your potential customers know about the scope of your business and your location is important in every industry. Therefore, the more people can recognize your company's logo and remember your address, the better for you.

However, in order to let buyers get to know who you are, you should invest in some promotional means, for example **fabric advertising banners**. Such banners can be used both inside and outside buildings and serve as a way of promoting your flag product, inform your customers about your seat's address or even be used in a broad-defined promotion campaign of your company.

Fabric advertising banners

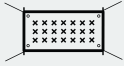

Textile banners can be produced in almost every size, however, there are some limitations when it comes to its width and length. The longest banner can be up to 50 m, whereas the maximum width is 2 m.

While ordering your *textile banner* from our company, you can ask for some additional finishing options. The banner can be cut to the desired size with the use of thermal cut method. What is more, it may be equipped with 6 or 10 mm eyelets every 50 cm or a bottom/top bar. Each product is rolled up, which makes it very convenient to deliver and store.

Other products in banners category:

- [Non-woven banners](#),
- [PVC banners](#)
